

SNO*MELTER®

RESIDENTIAL AND COMMERCIAL AUTOMATIC SNOW REMOVAL

G-Mat – Sno*Melter® G-Mats are standard size snow/ice melting mats in 18-inch and 36-inch widths. They are engineered to provide 50 watts per square foot and are factory stocked in 240 Vac models only. Mats are supplied with standard 20-foot cold leads. G-Mats are UL Listed. Contact your local representative for availability of voltages up to 480 Vac.

H-Mat – H-Mats are custom sized snow/ice melting mats. They are available in outputs up to 72 watts per square foot and in voltages up to 480 Vac. H-Mats are supplied with standard 10-foot cold leads. H-Mats are UL Listed. Please contact your local EasyHeat representative for details.

Step Mat – Step Mats come standard in 2- or 3-step models. Each is available in 3-foot or 6-foot tread width with 8-inch risers. Mats are 50 watts per square foot and are supplied with 10-foot cold leads as standard. They are factory stocked in 208 Vac and 240 Vac models only. Custom step mats are available for non-standard power densities (up to 72 watts per square foot), voltage and size needs. Step Mats are UL Listed.

Extra Length Cold Leads – Cold leads longer than standard lengths are sold either factory-spliced onto mats or cut-to-order on separate reels. Factory-spliced leads are available in 5-foot increments and the price includes both leads. Cut-to-order leads are sold by the foot. Use #14 AWG cold lead for mats under 14 amps. Use #10 AWG cold lead for mats up to 30 amps. Extra length cold leads are UL Listed and CSA Certified. Note: Most local codes require extra cold lead lengths to be factory-spliced onto mats. Check with your local inspector.

MI TRACE™

CONSTANT WATTAGE, PRE-TERMINATED CABLE

MI Trace™ is a fixed resistance, constant-wattage cable provided in pre-terminated lengths with factory-sealed connections. The cable is manufactured with an Alloy 825 outer sheath and normally used in high-temperature industrial applications. It is available in custom engineered lengths for 120, 208, 240, 277, 347, 480 and 600 Vac applications. MI Trace cable is UL Listed, CSA Certified, and Factory Mutual Approved for ordinary locations. Please contact your local EasyHeat representative for details.
