Access Control

Item Description

Access Control Keypad.

Features and Benefits

· This access control keypad is designed to interface with any Leviton Omni family or
Lumina automation system, and it is both weatherproof and vandal resistant

· The piezoelectric buttons work simply by tapping the surface, and do not require an
actual physical movement

· The sleek keys of this keypad can be operated with a bare finger or a snow-
covered glove equally well

· The Access Control Keypad connects via the serial port on a Leviton Omni or
Lumina home control system

· Leviton Part Number: AX541
