

## **OUR COMMITMENT TO SERVICE**

Throughout this price list you will find a service code for each model number. This service code is provided to give our valued customers a standard shipping commitment. Our goal is to maintain adequate inventory to meet these commitments 100% of the time, however, all shipments are subject to stock availability at the time of order release. Contact our Houston Service Center if these commitments do not meet your requirements. We will do our best to accommodate your special needs.

## PLEASE READ THE FOLLOWING IMPORTANT NOTES PRIOR TO ORDERING

All claims for freight damaged material must be filed on the appropriate freight carrier at the time the material is received. If concealed damage is suspected, shipment must be signed for "Subject to Inspection." Vynckier will not honor claims for freight damaged material until a claim has been filed with the carrier.

APO models ordered with depth extension collars (i.e. A41-1212E1) are shipped unassembled. If factory assembly is required, please note that stainless steel mounting feet must be ordered when extension collars are factory assembled.

Vynckier Enclosure Systems, Inc., as a matter of policy, does not sell to the U.S. Government. The reason for this policy is that Vynckier does not have the ability to comply with many of the requirements of the Federal Acquisition Regulation (FAR) and other regulatory provisions which are typically incorporated into government procurement contracts.

Blanket orders will be accepted only when scheduled ship dates do not extend beyond 12 months from the date of original order entry. In the event of a price increase, prices will only be held for the original blanket order.
