

# Solar Bonding Lug – EL6CS

- Bonds the frames and mounting structures of solar photo voltaic systems in accordance with NEC® requirements
- Copper alloy is corrosion resistant and galvanically compatible with copper grounding conductors and aluminum photovoltaic module frames
- Lay-in feature allows for easy positioning along multiple frames

|                             |  |
|-----------------------------|--|
| Part Number                 | EL6CS                                      |
| Material                    | Bronze<br>Stainless Steel 18-8 (EN 1.4305) |
| Finish                      | Tinned                                     |
| Direct Burial               | No   |
| Conductor Size              | #14 Solid - #6 Stranded                    |
| Hole Size (HS)              | 0.221"                                     |
| Screw Included              | Yes  |
| Thread Size (TS)            | 10 UNS                                     |
| Certifications              | cULus                                      |
| Standard Packaging Quantity | 25 pc                                      |
| UPC                         | 78285666519                                |
| EAN-13                      | 8711893064940                              |
